

Nevada Section Annual Winter Meeting

Landscapes, Ranchers & Agencies – Changing Dynamics

December 6, 2018

Nevada Department of Wildlife Office

Join us for an afternoon of presentations focusing on changing dynamics with ranchers involved in the BLM's Outcome-based Grazing (OBG) Program in Nevada. Three different ranches working in the program will discuss their participation and how OBG is changing their operational dynamics. BLM Rangeland Management Specialists working with the ranchers will offer administration and monitoring information particular to each ranch's goals and allotments. Additionally, a presentation on the Martin Fire in Humboldt and Winnemucca counties will be discussed to highlight how the fire has changed the way they are operating, and how the BLM is working to restore the range while keeping ranching operations in business.
