SOCIETY FOR RANGE MANAGEMENT

2020 Summer ~~field tour~~ Zoom Meeting

Rangeland Health

“Perspectives on Landscapes”

Friday July 17th 8:30am – 11:00am (pst)

[\(Zoom invite\)](#)

[\(Agenda\)](#)

Hear from top professionals from various fields in range management. Each will present how their work contributes to rangeland health and how they define “what is a healthy rangeland?” Topics covered will include fire rehabilitation and prevention, plant community resistance and resilience, annual grass herbicide control and wildlife habitat improvements.

Hear from these presenters

Keith Barker, Fire Ecologist Carson City District BLM. “Long Valley Fire Rehabilitation Project”

Gabe Ludwig, BAYER. “Rejuvra™, a Newly Registered Herbicide for Annual Grass Control on Rangelands”

Jeanne Chambers, Senior Scientist with the USDA Forest Service, Rocky Mountain Research Station. “What Makes Plant Communities Resistant to Nonnative Species Invasions?”

Shannon Clark, Colorado State University. “Enhancing pollinator habitat while reducing wildfire risk”

Mark Freese, Western Region Supervising Habitat Biologist Nevada Dept of Wildlife. “Cooperative Habitat Improvement Efforts”

One Landscape, Many Views

Bedell Flat, Nevada
